

# Titan Kogyo, Co., Ltd. Ube Plant

**Location** : 1978-25 Oaza-Kogushi, UBE-CITY, YAMAGUCHI-KEN, 755-8567, Japan

**Representative** : Masanori MATSUKAWA

Business Classification	Capital	No. of Employees	Established
Chemical industry	¥3,049,540,000	300	1936

**Description of Business:** We strive to create a better environment through researching and manufacturing optical oxidation catalysts, deodorizers and material cutting ultraviolet rays.

<b>Main Products and Business:</b> Production of titanium dioxide, synthetic iron oxide and magnetic iron oxide
<b>Main Equipment and Facilities:</b> Manufacturing facilities for titanium dioxide, ultra fine particle titanium dioxide, synthetic iron oxide and magnetic iron oxide
<b>Main Facilities for Preventing Pollution:</b> Waste water facilities for titanium dioxide and iron oxide / Processing facilities for fluid iron oxide waste.
<b>Licensed and Qualified Engineers &amp; Specialists:</b> Pollution prevention control manager; 33 (water pollution) , 27 (air pollution) , 6 (noise) , 1 (vibration) , 3 (dust) / 1 architect (1 environmental measurer / 1 working environment measurer)

## Environmental Preservation Activities

<b>Waste and its Recycling</b>	Collecting and recycling waste acid / Reducing and recycling waste acid / Making an effective use of dirt
<b>Reducing use of Energy and other Resources</b>	Inverting control equipment as an energy conservation tool / Separating garbage from aluminum and steel cans for recycling
<b>The Earth Environmental Conservation</b>	Control CO <sub>2</sub> emission (amount of fuel is controlled)
<b>Others</b>	Environmental education for employees / Promotion of ISO 14001 certification activities ( obtained in November, 2002)

## Eco-business and Eco-products

<b>Services for Environmental Preservation</b>	Waste treatment business (Waste acid treatment / waste alkali treatment)
