
Titan Kogyo, Co., Ltd. Ube Plant

Location : 1978-25 Oaza-Kogushi, UBE-CITY, YAMAGUCHI-KEN, 755-8567, Japan

Representative : Masanori MATSUKAWA

Business Classification	Capital	No. of Employees	Established
Chemical industry	¥3,049,540,000	300	1936

Description of Business: We strive to create a better environment through researching and manufacturing optical oxidation catalysts, deodorizers and material cutting ultraviolet rays.

Main Products and Business: Production of titanium dioxide, synthetic iron oxide and magnetic iron oxide
Main Equipment and Facilities: Manufacturing facilities for titanium dioxide, ultra fine particle titanium dioxide, synthetic iron oxide and magnetic iron oxide
Main Facilities for Preventing Pollution: Waste water facilities for titanium dioxide and iron oxide / Processing facilities for fluid iron oxide waste.
Licensed and Qualified Engineers & Specialists: Pollution prevention control manager; 33 (water pollution) , 27 (air pollution) , 6 (noise) , 1 (vibration) , 3 (dust) / 1 architect (1 environmental measurer / 1 working environment measurer)

Environmental Preservation Activities

Waste and its Recycling	Collecting and recycling waste acid / Reducing and recycling waste acid / Making an effective use of dirt
Reducing use of Energy and other Resources	Inverting control equipment as an energy conservation tool / Separating garbage from aluminum and steel cans for recycling
The Earth Environmental Conservation	Control CO ₂ emission (amount of fuel is controlled)
Others	Environmental education for employees / Promotion of ISO 14001 certification activities (obtained in November, 2002)

Eco-business and Eco-products

Services for Environmental Preservation	Waste treatment business (Waste acid treatment / waste alkali treatment)

Outline of Business (Flow System and Photos)

CREATION

We offer various products for our lives today. Our products are made of ilmenite which is one of the most ideal materials. This material has been used for products developed with innovative technology. We are still striving to research this material for other products.
