# Hitachi Construction Co., Ltd.

**Location:** 720 Oaza Tsumazaki Kaisaku, Ube-CITY, YAMAGUCHI-KEN, Japan

**Representative:** President Minoru TAGAMI

Business Classification	Capital	No. of Employees	Established
Construction Business	¥36,000,000	144	1920

**Description of Business:** We recycle raw materials when we do the work of design, construction and production of recycled compound asphalt material and a recycled crusher run.

<b>Main Products and Business:</b> Integrated construction industry / the 1st degree of architect office / Surveying industry / the building lots and building transaction business / Manufacturing the asphalt compound material and the recycled compound asphalt material / Production of the recycled crusher run
<b>Main Facilities:</b> Asphalt plant 1000 FAV / Recycle plant NRU・TOP 30-30AL / Crushing plant TCP 30
<b>Main Facilities for Protecting Pollution:</b> Atmospheric conservation; Bug filter system / Dryer burner; Low-on-burner
<b>Qualified Permits, Registrations and Others:</b> License for construction; the Ministry of Land Infrastructure and Transport (special-13)No.14168 / 1st class architect office Yamaguchi Pref. 2142 / License for land survey; the Ministry of Construction (4)-16543 / Real estate broker Yamaguchi Pref. (02)-002740 / Industrial waste treatment Yamaguchi Pref. No.3546024969
<b>Licensed and Qualified Engineers &amp; Specialists:</b> 3 registered architects (1st class) / 2 registered architects (2nd class) / 38 civil work control technicians (1st class) / 26 civil work control technicians (2nd class) / 6 construction machinery engineers (1st class) / 14 construction machinery engineers (2nd class) / 5 construction control technicians (1st class) / 4 construction control technicians (2nd class) / 3 piping work control technicians (1st class) / 6 piping work control technicians (2nd class) / 7 gardening control technicians (1st class) / 8 gardening control technicians (2nd class) / 8 registered surveyors / 2 managers of the real estate broker / 5 pollution control managers (the air 4th class) / 1 pollution control manager (the air 2nd class) / 1 pollution control manager (the water quality 4th class) / 2 pollution control managers instead of forms (noise)

## Environmental Preservation Activities

<b>Environmental Pollution Prevention</b>	Air pollution ; Bug filter system / Noise and oscillation ; each place where noise or oscillation occur is equipped with partial measurement such as noise barrier and dust proof wall.
---	---

---

---

## Eco-Business and Eco-Products

Equipment for Reducing Environmental Pollutant	Crushing plant TCP-30
Products to Reduce Negative impact on the Environment	The recycled compound asphalt material (The 13-0 mm recycled material manufactured from crushing asphalt is mixed in the asphalt concoction)
Services for the Environmental Conservation	Sewerage maintenance (investigation / cleaning / repair)

### Outline of Business (Flow System and Photo)

#### Sale of Compound materials

Ube Asphalt Factory  
NIKKO Recycling Unit  
NRU・TOP 30-30AL

Recycling Treatment Unit

Ube Asphalt Factory - Crushing Plant  
Manufacturing Capacity: 25-40T/H  
Model: TCP-30

The Mobile Crushing Plant  
Manufacturing Capacity 80-170T/H  
Model NC 420G

---

### Further Information on Environmental Technology

Hitachi Construction Co., Ltd.

The Engineering Division / Ube Asphalt Factory

Contact : Ryutaro MATSUOKA

Address : Tano-Ono, Futamatase-Ku, UBE-CITY, YAMAGUCHI-KEN, 759-0133, Japan
